HERE'S the POINT

By SPENCE HELD

When I was a kid I won a five pound box of Nabiscos at the Hillcrest Theatre; I still remember the stunned and foolish feeling as I hotfooted it down the aisle to collect my prize.

Saturday afternoon I was a judge, along with Bill Knopp and John Pierce, at the drawing for 50 prizes staged by Wolf Jewelers on Newport Ave. We took turns drawing entry stubs from the well-scrambled 12,000 in the hopper.

Some of the winners were among the crowd; the top four were called by telephone.

Boy, the squealing that came from a group of teen-aged girls when Betty Ann Nelson won a $25 ladies' stole!

Cute little Linda Lee Wolf, 3-year-old daughter of Henry Wolf, drew the last three stubs from the hopper for the three grand prizes. Frank P. Clark, of 4986 Del Monte Ave., won first prize—a $500 Keepsake diamond ring.

Notified by phone, he hurried over to the store and collected his prize. He and his wife will celebrate their 50th wedding anniversary before long, and I guess you know who will get the ring.

Well, I see by one of the papers that a State College fraternity will hold a "foldfish-swallowing contest" for free tickets to a dance.

"Foldfish" is what they said. Maybe a foldfish can be swallowed in two or three easy gulps, instead of the whole thing at once, huh?

Personally, I wish the current crop of college kids would show more originality. Goldfish-gulping is definitely dated, and its local revival is almost on a par with that silly imitation of other colleges last fall, when the lunatic fringe hanged the football coach in effigy.

At this stage of the game I'm not so hot for fraternities, anyhow. In fact, I was glad to see that a non-fraternity fella, Norman Brinker (Mo Connolly's husband) was elected president of the student body at State.

Asked to compose an esay on Quakers, a boy wrote: "Quakers are very meek, quiet people who never fight back or answer back. My father is a Quaker, but my mother is not."

Here's another one from somewhere: "Forgiveness is the perfume the violet leaves on the heel that crushes it."

BURGENER BOOSTED AT DINNER GIVEN BY HAROLD LA FLEUR

More than 100 Peninsula residents attended a buffet dinner for Clair Burgener, candidate for 78th District Assemblyman, Friday night at the home of Harold La Fleur, prominent local real estate developer, at 3407 Gage Pl., Point Loma.

Burgener and his wife, Marvia, and Mr. and Mrs. La Fleur greeted guests as they arrived during the two-hour open house.

Displayed throughout the recreation area of the La Fleur home were large campaign posters such as "Send New Energy Plus Experience to Sacramento," and "State Legislature Needs New Energy Plus Experience."

Among those attending were Mr. and Mrs. Daryll Johnson, Mr. and Mrs. Griff Hayes, Mr. and Mrs. James Noel, Mr. and Mrs. Clyde Wood, Mr. and Mrs. Max L. Perlatti, John T. Wright, Mr. and Mrs. Al Bentley, Mr. and Mrs. William Knopp, Mr. and Mrs. David H. R. Pain, Harold F. Tebbetts, Mr. and Mrs. Raymond E. Nolan and Mr .and Mrs. Frank Allen.

Burgener expressed a desire to meet with Peninsula residents in "coffee klatches" or other gatherings here; arrangements may be made with Griff Hayes, his campaign manager, at Burgener headquarters, 3022 Midway Dr.

Several of those present made arrangements for meetings at their homes.

WATER SKI CIRCUS PLANNED AT MISSION BAY CELEBRATION

A 17-act water ski circus, featuring stunts never before performed on Mission Bay, will be staged by the San Diego Speedboat Club on the afternoon of Sunday, June 3, as part of the celebration of the first annual Mission Bay Day.

Mission Bay Day, recently proclaimed by Mayor Dail, is being observed to acquaint citizens with the varied recreational activities which the Bay area offers to all San Diegans. Paul Hartley and Gerald Crary are serving as co-chairmen of the event, which is expected to attract thousands.

"We plan to have our performers dressed in gay Fiesta costumes," said Harry Sherwood, chairman of the water ski show. "Spectators will get a preview of some of the finest skiing talent on the Pacific Coast which we have right here in our club."

Included in the afternoon program are jumping acts, demonstrations of unison skiing and clown stuff. Dave Heller, Pacific Coast trick water ski title holder, and Sally Sherwood, 1954 Pacific Coast girls' overall champion will perform on "flying saucers" instead of the usual skis. A five-girl water ski ballet is also practicing.

Three skiers from the club are now perfecting a difficult though amusing act, known as "Russian Roulette," in which each performs behind the same boat, doing crisscrosses with tow-ropes of varying lengths.

Outboard boating, model-racing, sailing, swimming, skin-diving, archery, golf and other outdoor sports will be featured. Military participation, including an air-sea rescue by helicopter and a boat drill by the U. S. Coast Guard Auxiliary, are being planned.

'Y' TO WELCOME M. T. CHATER

Ceremonies welcoming Melville T. Chater as general secretary to the Metropolitan YMCA are scheduled for tomorrow, May 11, at 4 p.m., according to Guilford Whitney, president.

Civic and business leaders will attend the activities. They will begin with a reception where officers, members of the board of directors and guests will meet Chater.

The group will then be guided on a tour of the facilities by youngsters who are members of the Red Feather service.

Chater has a record of YMCA work from Canada to California. In 1927 he joined the Vancouver, B. C., YMCA as boys' secretary and later moved to Westminister, B. C. in the same capacity.

He later returned to Vancouver where he is credited with establishing the "Life College" program which is still in operation throughout Canada.

After serving as member of the faculty of the Schools of Social Work, University of British Columbia and Toronto University, he filled the position of executive director at the San Pedro YMCA.

He succeeded Charles L. Crumly, who had held the San Diego position for the past 15 years.

Chater's new duties will include over-all supervision of the 3,731 members of the YMCA's in the city.

Szmara, 4883 Narragansett Ave., was the third prize winner. The other 47 winners are listed in the window of Wolf Jewelers—if you entered the contest it would be a good idea to check.—P. N. Banker Promoted To Branch Manager

Promotion of Gilbert Van Duyn Jones, assistant vice president, from assistant manager of First National's Midway Branch to manager of the bank's 11th and Market Street Branch was announced by Anderson Borthwick, president of First National Trust and Savings Bank of San Diego.

Jones joined First National as a messenger in 1933 and through succeeding years of promotion was appointed an assistant vice president in January, 1955. He attended grammar school and high school in San Diego, New Mexico Military Institute and Cornell University. During World War II he served in the Navy, returning to inactive duty as a lieutenant commander.

He belongs to a family long identified with banking interests in this city, as well as its social and cultural life. His father, the late H. H. Jones, was a director of the First National Trust and Savings Bank of San Diego, president of the San Diego Gas and Electric Company and president and one of the founders of the San Diego Country Club.

2 Local Anglers Among Leaders In Yellow Derby

Minimum qualifying weight in the first period of the $25,000 San Diego Yellowtail Derby hit the 23 pound level early this week but failed to dislodge two Point Loma anglers who are hanging onto comfortable positions among the top 150 fishermen.

Largest yellowtail of the week was a 33 pound 2 ouncer caught by Anglerette Charlene McGowen, Long Beach, but it was closely followed by a 32-2 taken by Charles Newlin, Oakland; a 31-12 by Herbert Galbraith, Lynwood; a 30-10 by Bill Glaser, San Diego and a 30-6 by Jim Stutz, Los Angeles.

At this point, Harold Hanson, 1730 Rosecrans is pacing anglers from the Point Loma-Ocean Beach sector with a 29 pound 11 ounce yellow, but Sally Von Natto, 4015 Tennyson, held the women's lead part of the week with a 26-12 but later was displaced by the mossback caught by Mrs. McGowen on 12-pound monofilament line and spinning gear.

Log barracuda, up to 11 pounds weight, also moved into the Islands waters this week to enliven proceedings, but cold water also turned up to slow down both the yellows and barries, although a change of currents could warm it up again overnight.

GOP Candidates To Speak In O. B.

"However," he said, "because of delays in some equipment and furniture, we are postponing our open house celebration until the middle of June."

POINT LOMA LITTLE LEAGUE TO OPEN SEASON SATURDAY

With a Pancake Breakfast scheduled at 9 a.m., colorful ceremonies will mark opening of the Point Loma Little League Saturday, May 12, at the baseball field on Harbor Dr. at Lowell St.

The defending champion Kiwanis team will play Rotary at 10:45 a.m., and De Falco's will meet Optimist in the second game.

Arnold Kehrli, league president, has arranged a pre-game program featuring the CRUDESPAC Band, Navy color guard and Naval Training Center drill team.

Guests will include Rear Adm. Hartman, commandant, 11th Naval District; Capt. J. B. Gay, commanding officer, Fleet Sonar School; State Sen. Fred Kraft, Assemblyman Frank Luckel, and Ralph Kiner, general manager of the Padres.

Al Schuss or Wilson Edwards will be master of ceremonies.

Team sponsors will be represented by Syd Smithson, Kiwanis president; Pat Branin, Rotary president; J. P. Bryce, Optimist president, and Gene De Falco, of De Falco's Markets.

The Little League field with its fine green turf is considered one of the best in the city. It was made possible by the joint efforts of the City Harbor Commission, Navy Fleet Sonar Base, Point Loma service clubs, and league members.

Team managers are George MacLachlan, Kiwanis; Wayne Smith, Rotary; Dick Rucker, De Falco's, and Carl Medina, Optimist.

With last year's 12-year-old stars graduating to the Pony League, and with the addition of new players, there are no preseason favorites.

Some 400 boys are in the league—there is a full farm team schedule.

The Women's Auxiliary promises the new refreshment stand will be open for business.

SCHOOLS TO PRESENT MUSIC FESTIVAL IN BALBOA BOWL

The city schools' biggest musical show of the year, the traditional Mother's Day music festival will be held Sunday, May 13 at 4 p.m. in Balboa Bowl.

Seven hundred of the city's top high school musicians, both instrumentalists and vocalists, will participate in the colorful tribute to all mothers. The festival, arranged by Dr. Alex Zimmerman, diecrtor of music education, and his staff, will be open to the public without charge.

The program also will be dedicated to the memory of the late Myron B. Green, popular supervisor of vocal music, who died last fall.

Both the 571-voice choir and the 130-piece orchestra will be massed on the stage for a spectacular opening number, Wagner's "Awake!", choral portion of which is from "Die Meistersinger." The closing number also will feature the combined orchestra and choir.

All of the city's seven regular high schools are represented in the membership of the two musical groups. Zimmerman and his staff have been assisted by high school music teachers in preparing the festival program, including Robert E. Heninger and Robert C. Olisar, of Point Loma High.

Handy Jim's FIXIN-UP TIPS For the Home

Remember Desk in Attic

IN MODERNIZING an attic, don't forget the advantages of a built-in desk, like the one shown in the illustration. Construction is simple, but the framing should be installed before covering the rafters with panels.

Actually, this is a desk plus two storage shelves. The door may be made the same height as

the space between the shelves or it may extend above the top shelf. In the latter case, you'll protect the contents of the shelf and have a larger writing surface.

Both the desk door and the shelves are made simflarly, by forming frameworks of 1 by 2-inch lumber, fastening them together with corrugated metal, and gluing Masonite 3/16" Tempered Presdwood to both sides.

A permanent material for covering attic rafters is Masonite Panelwood, a hardboard that's easy to work, quick to install and long lasting. Available at lumber yards, it comes in 4 by 8-foot panels which go up in a hurry with a minimum of fuss and muss.

For a free plan showing the desk and other plans for modernizing an attic, write to the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2.

Contest Announced For 'Mrs. U.S. Navy'

"Early American history and modern history too, failed to describe the service wife. Through the integrity and unity maintained by the service wife, she has insured the presence of the American flag flying in front of homes on Veterans Day and in the school yards where children play."

So said Harry T. Thorsen, of Ocean Beach, public relations committeeman of Branch 30, Fleet Reserve Association, this week in announcing that the association has launched a contest to select the outstanding Navy wife as "Mrs. U. S. Navy, 1956."

Rules for entering the contest may be found in Bureau of Personnel Notice 1700 and 21 April issue of Navy Times, he said.

Branch 80 requests maximum participation in the contest by enlisted personnel.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Ezra Benson, Secretary of Agriculture, is basically too sound a fellow to become a demagogue. Yet bureaucratic pressure is trying to make him one.

* * *

For the big drive now is to try and pin the farmer's plight on the corner grocery.

* * *

C. W. Harder

Despite the fact that in last 7 years 3,745,000 farm dwellers have been plowed under, despite fact government now owns somewhere about $8 billions in so called surplus production, the position of the American farmer, based on the parity scale, is no better now than in 1935. A rapidly shrinking share of the consumer's food dollar is going to the farmer.

* * *

Therefore, the villain is now distribution costs, and with a tried and true tactic of demagogues of all ages, a drive is starting to make it appear that all engaged in processing, wholesaling and retailing food are gouging the public.

* * *

While it is undoubtedly true that with some commodities, combines who seems to avoid the attention of anti trust law enforcers are apparently maintaining excessive profits, independent wholesalers and retailers are not showing profits anywhere near what their efforts and investments entitle them to.

* * *

Distribution costs are high, on food, and everything else.

* * *

But government has been following policies which can have no other effect than make them even higher. Politicians through history have seemed prone to ignore the fact that taxes placed on business must in turn be passed on to the public. No business has tree growing money.

* * *

For example, today 4.4 million employers pay into social security almost $3 billion, $2.85 millions as the employers' half of this program. If present plans go through, by next year that will be raised to over $3.5 billion.

* * *

These billions have to be tacked onto the price of every loaf of bread, every pork chop.

* * *

Another example is fairly recent habit of states and cities of assessing inventory taxes. Every year, on a certain date, wholesalers and retailers must pay tax on goods they have in stock.

* * *

As these firms cannot be operating with empty floors during this tax period, this tax cannot be escaped. In some areas it is estimated this tax alone raises average family food costs 2%.

* * *

The billions given away to foreign nations are also inevitably reflected in the cost of food.

* * *

And it would be a super human task to try and arrive at how much is added to the price of pork chops by all the clerical and accounting labor that is necessarily expended to collect these taxes, make out reports.

* * *

Actually, the independent merchant knows firsthand how grave the farm problem is. His own welfare, he knows, depends to a large extent on the welfare of the farmer. Thus, perhaps the real solution to the farm problem would be for the establishment of cordial relations between the independent operator in the food business and the farmers. Between them they could exert substantial influence in getting that problem licked. But of course, bureaucrats would not like to see such a relationship established. It is much easier to try and drive a wedge between the two most important segments of the economy.

Tips on Touring

By Carol Lane
Women's Travel Authority

You can take photographs from a moving car and you don't have to be an expert to do it. But don't try it while you're driving! Let someone else drive while you take pictures. Just keep your camera in a handy place and when you come across something particularly photogenic — just snap it through your windshield! Distant scenes can be photographed from a car moving 20 miles an hour or less with even a simple box camera.

But remember, a simple camera is limited to getting scenes approaching head-on and *not* scenes passing across the camera viewfinder. A scene passing across the finder can be taken if your camera has a *fast shutter* and if you're adept at panning: that is, aiming your camera as the car approaches, moving the camera so as to keep it "on the scene", taking the picture as the car passes the view you want. Cameras with eye-level viewfinders are good for taking photos from a moving car because they are easy to "aim".

When you take pictures from a moving car you won't have a great deal of time to compose the shot as well as you might like. But you can always crop, or trim away the unwanted portion of the photograph after the film is processed.

If you stop to photograph a roadside scene, remember to observe safety rules. Don't just stop the car on the edge of the highway —move it well off the road so you don't impede traffic or create a hazardous situation. Stopping once in awhile to snap pictures will give you a chance to limber up from the ride. It also provides a rest for the driver.

Now: Handy New Touring Guide

Mother and Dad and the kids will be hitting the road as never before during this summer's touring season.

Andrew J. Sordoni, President of the AAA, predicts that "we are entering the greatest season of travel we have ever known."

He made this statement recently in an article in Parade Magazine reporting on the amazing changes in America's big network of turnpikes and superhighways.

Parade also announced a handy packet that every driver will want to tuck in the glove compartment of the family car. It's a handy new Guidebook and Map showing the latest developments in the nation's turnpikes and superhighways from California to Maine. Edited up-to-the-minute from top sources, it brings together for the first time the best information on our new highways. As the touring season approaches, it's Heaven-sent.

From the Guidebook and Map you can quickly brief yourself on such highway developments as the new Ohio Turnpike, new sections added to the Pennsylvania Turnpike, and additions to the New York, New Hampshire and Maine Turnpikes.

You'll get the latest information too on new toll roads opening in Indiana, Kansas, Kentucky and Massachusetts.

The Guidebook goes further than this, though, because it shows the best and shortest routes between all U. S. cities —routes that American families will travel this year in greater numbers than ever before.

Send For Your Copy

Since the supply of Guidebooks and Maps is limited, Parade editors have urged prospective motorists to send for their copies at once. You can get yours by sending your name and address and 25¢ in coin to Parade Guidebook, Box 475, Dept. 18, Radio City Station, New York 19, N. Y.

Warren-Walker May Festival

The patio of the Warren-Walker School, 4605 Point Loma Ave., was turned into a picturesque flower garden for the annual May Dance Festival.

One hundred and fifty children, ranging from nursery age through the eighth grade, entertained approximately 250 parents and friends with various types of dances. Each class gave a series of dances around the Maypole.

The climax of the program was the winding of the Maypole by eight couples made up of children from the upper grades.

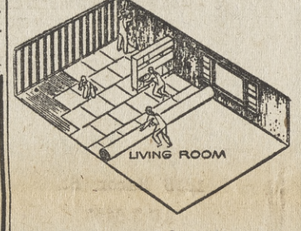

Trained consultation in solving domestic problems is provided by three Red Feather agencies—Family Service, Catholic Casework Bureau and Jewish Social Service.

Handy Jim's FIXIN-UP TIPS For the Home

Underlayment, Money Saver

IN NEW homes that will have wall-to-wall carpeting, wise owners are insisting on omitting finish floors as an unnecessary expense. Instead, they are specifying Masonite Underlayment, which goes right over the subfloor and provides a smooth, even base for the carpeting.

Wherever flexible floor coverings are wanted, in homes new or old, experts recommend the underlayment for several good reasons. These are:

Greater life expectancy for rugs, linoleum, rubber, asphalt tile or cork.

Greater strength and stiffness in floor construction.

Tighter, warmer floor, especially over crawl spaces in slab construction.

Less transmission of noise to floor below.

Underlayment furnishes additional insulation, decreasing heat losses.

Easy to apply, Masonite Underlayment is readily fastened down with nails or staples. It is available, with directions, in lumber yards. The panels have a uniform thickness of .215 inches, slightly less than ¼", and are available in two convenient sizes, 3 x 4 ft. and 4 x 4 ft.

HEALTH FOR ALL

Grandfather is coming home from the hospital today. The doctor says that his tuberculosis is cured. "He has plenty of good years ahead of him, if he's careful," were the doctor's exact words.

Plenty of good years. Grandfather isn't so sure. He's 66 years old. He was working at the gas company when his tuberculosis was discovered, but he can't go back to his job there. He has passed the retirement age. Of course, he has his social security. And he's coming to live with us. He says he'd rather take a little room by himself and be no trouble to anyone. But we can't allow that.

The story you have just read is a true story. And it is not an unusual one. The tuberculosis hospitals are "graduating" many older people these days. About 45 per cent of the new cases of tuberculosis reported are in people over 45. About 14 percent are in people 65 and over.

For all practical purposes, these older men and women do have "plenty of good years ahead" when their TB is cured. But what are they to do with the years? The older you are, the harder it is to find a job, even though you may be quite capable of doing a good job. Social security payments buy the minimum in housing and groceries. Living with relatives isn't always ideal.

Retirement is a different problem for all of our older citizens. But it's especially difficult for former tuberculosis patients who must face the hazard of relapse if they do not keep in good physical and mental health.

This is more than a personal problem or a family problem. It affects the entire community. A relapse may mean not only that TB germs are spread, it means an added financial burden to the community which has to pay for a second course of treatment for the patient.

What does your community do to keep its older citizens healthfully occupied? What does it do for those—like ex-TB patients—who may be handicapped in some degree? What the community plans for its elders of today will be for us—the "elder citizens" of tomorrow.

ORGAN CONCERT FRI. AT LA JOLLA CHURCH

Safety Tips For Power Mower Users

RACINE, WIS. — This season power lawn mowers will be operating on more than 10,000,000 lawns—a 2,000,000 increase over 1955. This will result in a corresponding increase in the risk of accidents to careless users, Charles A. Livesey of a leading manufacturer of power mowers here, warned.

Much progress has been made by manufacturers of power mowers in the design of equipment to provide maximum safety for operators. An illustration of a new development in safety engineering is a "suction-lift rotor" cutting unit (Picture #3) which is now standard on rotary mowers produced by Jacobsen Manufacturing company.

Elimination of a straight steel cutter bar and substituting four cutter knives on a disc reduces by 80% the possibility of picking up and throwing such objects as bones, nails, bits of glass, or stones. The rotor's four cutter knives will retract on hitting a fixed object such as a curb, sprinkler head, or iron pipe thus minimizing the chance of the knife's breaking and projecting the broken piece across the yard.

For users of all power mowers, reel or rotary types, he has these safety tips:

1. Start the mower on level ground, make sure your feet are away from the cutter bars or blades (Picture #1). He recommends placing one foot on the mower deck, with one hand holding the handle to keep the machine firmly on the ground.
2. Learn how to stop the mower or how to put it in neutral quickly.
3. Go over the lawn before mowing to remove rocks, sticks, wire and other foreign material.
4. Be sure children and pets are clear of the machine.
5. Be careful of your footing when mowing on inclines.
6. Don't make any adjustments, remove clogging grass or sticks, or reach in front of the mower while the engine is running. Always disconnect the spark plug wire when making adjustments and keep hands, feet and loose clothing away from moving blades, reels, motor belt, and exposed chain. (Picture #2).

WASHINGTON Letter

By BOB WILSON
Member of Congress

In the last few days I introduced a new fisheries policy bill considerably different from the one I sponsored in early January but aimed at the same eventual goal—government support of the San Diego-San Pedro tuna industry in its fight for survival.

My original measure was the first of its kind to be introduced in Congress. The amended version was in line with what the fishing industry decided was the best legislative solution to its many problems.

Whereas the January bill would have set up an Assistant Secretary for fisheries in the Commerce Department, the new legislation instead would establish a semi-independent fisheries commission within the Interiar Department.

The Commission would answer only to the Interior Secretary. So the bi-partisan group in a sense would be to the American fishing industry what the Maritime Board is to the commercial airlines.

It would take over commercial fisheries functions now handled by the Interior Dept.'s Fish and Wildlife Service. Under the original legislation these functons would have gone to the Assistant Secretary for Fisheries in the Commercial Department.

* * *

These are the main aims of the revised legislation, introduced in the Senate by Sens. Kuchel (R-Cal.) and Warren G. Magnuson (D-Wash):

It would spell out a comprehensive national policy for domestic fisheries—a policy long needed by not only the tuna industry but other segments of American fisheries as well.

It would establish the commission to carry out the policy.

It would prescribe the functions of the commission, not only those presently under jurisdiction of the Fish and Wildlife Service but additional ones as well.

It would define the status of the commission, outlining its authority to act on behalf of U. S. fisheries.

The legislation has the support of about 2600 American fish producers and canners.

I am still confident, of course, that the White House will answer my request for Administration support of legislation aimed at giving the tuna industry a hand. If I had to predict I would say the administration will recommend a bill somewhere between the original January measure and the revamped legislation.

* * *

The other day Sen. Kuchel and I discussed the Mission Bay yacht harbor situation and decided we would seek supplemental federal funds for additional bay dredging if the Mission Bay improvement bond issue is approved at the June 5 primary.

The stamp of approval by San Diego voters on this issue would show clearly that the community is ready to assume its obligation toward improving Mission Bay. That would go a long way toward convincing the White House and the Army Corps of Engineers that the federal government should step in and help out, too.

Uncle Sam still is obligated to spend $3,000,000 on navigational phases of the bay development. But the engineers believe they could complete immediate dredging requirements in the bay with an initial emergency appropriation of $1,125,000.

* * *

After it was announced that a San Diego area wage board will conduct a new wage survey for per diem (blue collar) workers at naval installations. I wrote the Navy's industrial relations division urging action on higher pay for these civilian employees of the Navy.

In the letter, I pointed out that federal salaries and pay scales always lag behind comparable pay in private industry or business and that it has been two years since San Diego area per diem workers went home with a fatter pay envelope.

While it may be several weeks before the industrial relations division acts on recommendations of an area wage board, my letter intended to provide Navy officials with all the informations available when the time comes for them to decide whether an hourly wage boost is due for San Diego blue collar employees.

7,000 Dimes For Milk

A milk dispensing machine, placed as an experiment near the entrance to the Surge Real Live Cow Show tent at the Michigan State University Farm Equipment Centennial, did a land office business.

In one four-day test conducted by Babson Bros. Co., the dispenser metered out 7,033 cartons of milk. As a result, more than $700 worth of dimes found their way to the dairy industry.

George Mather of the Babson Bros. Co., builders of Surge milkers, says, "If we ever get smart enough in this country to make it as easy for a kid to buy a small bottle of milk as it is for him to buy a bottle of a lot of other things, both the dairy industry and the kids will be better off."

Tips on Touring

By Carol Lane
Women's Travel Authority

If you plan to pack the family pet—feline or canine—into the car come vacation-time, here are a few hints you may find useful.

The touring dog is usually a good traveler and needs only a little special care. Don't feed him for at least two hours before leaving. Take him for a few short rides before the "grand tour." And teach him the few essentials of car obedience: to stay put in the car, to sit or lie, not to bark, and to come when called, after he's been released for exercise. Get him an oversize dog tag (in case he gets lost in strange country).

Don't worry about accommodations. Some of the best hostelries now welcome travelers with dogs. "Touring with Towser", a public service booklet of the Gaines Dog Research Center, 250 Park Avenue, New York, lists almost 4,500 such places from coast to coast.

Cats, generally speaking, do not travel so well as dogs. If you're planning to take Kitty with you, I'd advise putting her in some kind of enclosure. A box with a side of chicken wire should do. Take along a leash and collar so she won't stray when you reach your destination. Don't feed her too soon before starting out—a cat's a more nervous traveler than a dog. Feed her canned food and fresh milk when you've reached your stop-over point. Cats are noted for cleanliness, so don't worry on this score.

With cats and dogs, as with human travelers, the same rule applies—plan well and you'll travel pleasantly.

Junior College Summer Session

A full schedule of day and evening classes for either junior college credit or for vocational certificates for the summer session starting June 18 was announced today by the San Diego Junior College and Vocational School. The technical division of the school, however, will not offer its usual program, since it will be moving from its present location at Market and State Sts., to the new shops at Fifteenth and Russ Sts.

Chemistry, physical science, mathematics, English, political science, and public speaking will be among the offerings in the applied arts field. Accounting, bookkeeping machines, calculating machines, business speech, salesmanship, shorthand, typewriting, and secretarial training will be included in the business education offerings. Cosmetology and vocational nursing will be operated continuously through the summer months, as is usual with the college.

All of these are a part of the program of the San Diego City Schools. Information may be had by seeing the counselors at Fourteenth and Russ Sts., or at 835 Twelfth Ave., or by telephone.

Murals of early San Diego County landmarks will decorate the Little Theatre at the Southern California Exposition grounds at Del Mar. Exposition visitors, June 29 through July 8, will be invited to submit negatives from which additional murals can be produced.

'Wilbur's Wild Nite' To Be Presented At Dana PTA Meet

"Wilbur's Wild Night," a one-act play, will be presented at a meeting of the Dana Junior High School PTA, Wednesday evening, May 16, at 7:30 o'clock in the school auditorium.

The play tells the story of Wilbur, 13, who decides he can help everyone with his troubles. The cast includes Phil Clark, Ralph Bonacker, Judy Ramsey, Virginia Good, Polly Wilgus, Lynn Morgan, John Smith and Duke Ferrara, all members of the Dana drama class. Mrs. Bette Hawkins is director.

The Boys' Glee Club will present musical selections. Installation of the new PTA officers also will be held. Mrs. Eugene Stephenson will install.

U.W.F. Speaker To Discuss Disarmament

San Diego Chapter of United World Federalists, of California, Inc., invites the public to hear Rev. Donald Harrington of the Community Church of New York discuss "Enforceable Disarmament: Fact, Faith or Fantasy," on May 9, at 8 p.m., at the First Unitarian Church, 1541 Sixth Ave. Admission is free.

Rev. Harrington was educated in New England and in Europe, spending a number of years there on scholarship. There he met and married Rev. Vilma Szanthos, first woman to be ordained as a minister in the North European area. Rev. Harrington has achieved great distinction in church circles, having been appointed while still a young man, to succeed the well-known John Haynes Holmes, former New York Community Church leader. This Church of Unitarian background is noted for its liberal interest in current problems and social betterment.

In keeping with U.W.F. policy of furthering public knowledge about the United Nations and prospects for its development for to an efficient organization for keeping the peace, United World Federalist Chairman, Mrs. T. T. Tanalski, reported the Harrington lecture will be followed by announcement of a U.W.F.—sponsored disarmament workshop meeting Saturday, May 26, place to be announced later.

Using U. S. State Department and Senate Sub-Committee releases as study materials, the participants expect to come to a clearer understanding of the world situation today and the role of the United States in inspiring peace efforts among the nations.

FRANCES M. WOLFE,
Notary Public, in and for said County and State.
My Comm. Expires April 1, 1957.

San Diego's manager, Bob Elliott, played the part of a hero recently. When his brother-in-law, Robert Hogue, fell off a fishing boat and hit his head against the side, Elliott got a rope and pulled him out of the water.

TAKE ADVANTAGE OF GIGANTIC TRADE-IN

ALLOWANCES ON BOX SPRING & MATTRESSES

COME IN —watch us wash nylons, wool blankets, Orlon coats and sweaters with complete safety.

FRIGIDAIRE'S RUB-FREE WASHING ACTION

Washes everything— but *everything*—wondrously clean without rubbing!

Here's how it works: The Pulsator-Agitator plunges up and down, whips soap and water into a super-cleaning combination. Keeps clothes constantly moving *under water.*

Thousands of swirling, churning currents of hot sudsy water do the whole laundering job—without any mechanical action whatever, to wear the life out of your clothes. Washables last longer—much longer—when washed this no-rub way.

Rub-Free Washing Action multiplies the cleaning power of soaps and detergents, too; uses less water, takes less time than other washing systems.

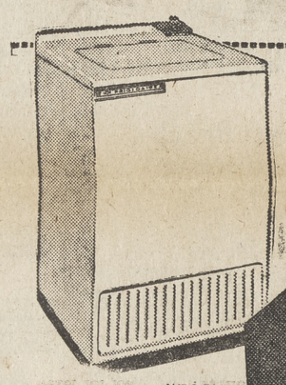

Come in today, and see this new Frigidaire Automatic in action.

FAMOUS FRIGIDAIRE FEATURES:

Rapidry Spin—whirls extra pounds of water out of every load.

Float-Over Rinse—automatically floats lint and dirt-laden suds up and out of the tub.

Flexible Controls—adjust wash cycle and water for load to be washed.
